OBJECTIVE

Third-year Computer Science undergraduate specializing in **Backend Systems, Cloud Infrastructure (AWS), and Distributed Architectures**. Combining hands-on experience in **API development, compiler construction, and microservices** with strong leadership and communication skills. Seeking a **Software Engineering internship** to build scalable, production-ready systems.

EXPERIENCE

President Jun. 2025 – Present
Central Link Toastmasters Club *Kandy, Sri Lanka*

- Lead a **7-member executive committee**; plan and execute bi-weekly meetings ensuring quality control and member engagement
- Achieved the **highest CEA and CQA points** in the district to date, elevating club performance and recognition.

Division Public Relations Manager (Division J) Jul. 2024 – Present
Toastmasters District 82 *Sri Lanka*

- Coordinated PR activities across **10+ clubs**; supported campaigns, event promotion, and reporting

PROJECTS

Kontrakt — API Testing DSL | *JFlex, CUP, Java, Compiler Construction* — 🔄 2025
Domain-specific language and compiler for defining and executing backend API tests with human-readable syntax.

- Developed a **compiler** for a DSL expressing **HTTP requests**, assertions, and test flows
- Implemented **lexer and parser** using **JFlex & CUP**, generating executable **JUnit 5** test cases
- Focused on maintaining a **comprehensive documentation**

Wiber — Distributed Messaging System | *Python, FastAPI, REST APIs* — 🔄 2025
Distributed messaging prototype exploring API design, message flow, and scalable service architecture.

- Built clean, documented **FastAPI** endpoints for message publishing and retrieval
- Structured services modularly (routing, models, services) to support scaling and future extensions

TMPL Website — Toastmasters Premier League Scoreboard | *TypeScript, Firebase Realtime DB* — 🔄 2025
Real-time web application for live score entry and leaderboard visualization for competitive Toastmasters events.

- Implemented responsive frontend with real-time score entry and leaderboard visualization
- Integrated **Firebase Realtime Database** for live synchronization across clients
- Designed clean UI flow with validation ensuring reliability during live events

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT) Nov. 2023 – Present
BSc (Hons) in Computer Science - GPA: 3.94 *Malabe, Sri Lanka*

Dharmaraja College 2009 – 2023
GCE Advanced Level (Physical Science) - Z: 1.17 *Kandy, Sri Lanka*

AWARDS & ACHIEVEMENTS

Dean's List Award: 4-time recipient for academic excellence (SLIIT), **Excellence in Leadership Award:** Toastmasters International, Nov. 2024

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, TypeScript, SQL, Bash

Frameworks & Tools: Spring Boot, FastAPI, React, Node.js, Next.js, Express.js, JUnit, Docker, Git

Databases & Cloud: MySQL, PostgreSQL, MongoDB, Firebase, AWS (EC2, S3, Lambda)

Specializations: Backend Development, RESTful API Design, Microservices, Distributed Systems, Agile/Scrum

VOLUNTEERING

Founder & Organizer 2024
Hillside Phoenix Donation Campaign *Kandy, Sri Lanka*

- Initiated and organized a donation campaign to support families affected by the Ditwah cyclone in Hanthana, Kandy
- Coordinated fundraising, logistics, and distribution with club members
